

Only those who know their way will find the way

MISSION STATEMENT

Frei Fördertechnik AG, a traditional family company, has been active in conveyor technology for over 55 years. Swiss quality, innovation, high productivity and safety are distinguishing features of the Frei brand. Extensive experience and broad expertise have a direct impact on the success of the projects.

With us, you will receive tailor-made solutions for any type of conveyed goods and materials. As a general contractor, we create complete systems – from planning to manufacture and commissioning. As an ISO certified company, Frei relies on innovative in-house developments that pass the test with flying colours as quality products in daily operation.

Our strategic business areas are:

Building materials • Industry • Automation • Intralogistics • Service
